

— EIGHT TOOLS, TESTED

AI tools for beautiful interior visuals.

Turn your model, sketch, or idea into a client-ready render — faster.

FROM THE MAKERS OF ATELIER

Tools that speed you up — never design for you.

Every designer is sold the same promise: type a sentence, get a finished room. That's not how good work happens.

— Irina, co-founder, Atelier

So we looked for tools that take your model, sketch, or idea and turn it into a beautiful visual, faster — then checked pricing and real reviews on each one.

GROUP A · 01–04

Real-time engines

Walk through your model live and export video or VR/360°. High fidelity — needs a capable GPU.

ESTABLISHED & WIDELY USED

D5 Render · Enscape · Lumion · SketchUp AI Render

GROUP B · 05–08

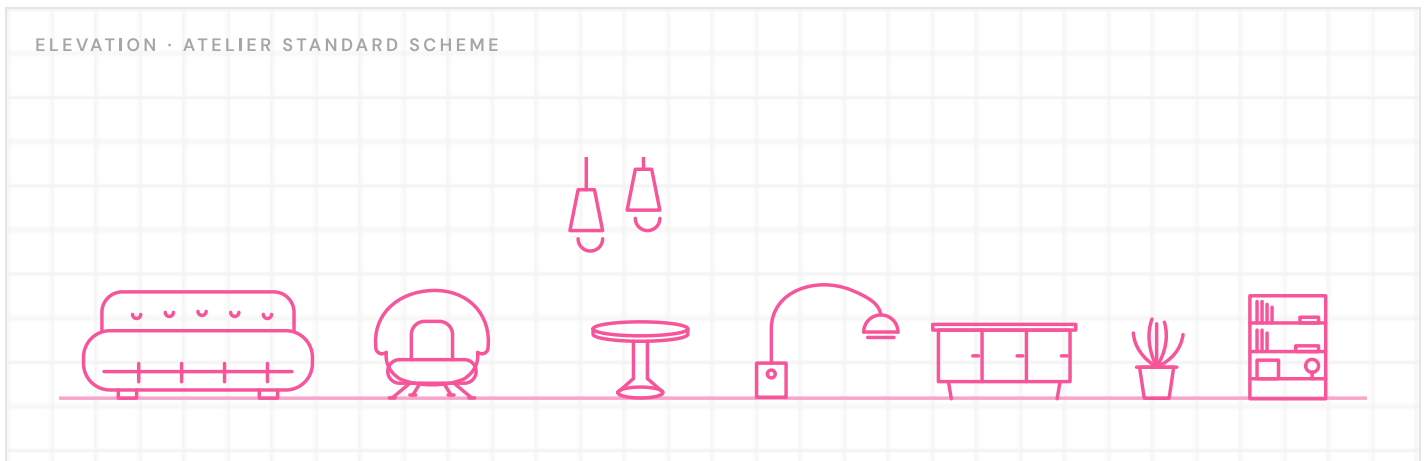

AI generators

Feed a model view, sketch, or prompt and get a finished image quickly. No walkthrough, but fast.

NEWER, WORTH WATCHING

Gendo · Veras · Vizcom · Mnml.ai

ELEVATION · ATELIER STANDARD SCHEME

REAL-TIME ENGINE · VR / 360°

D5 Render

Live, photoreal rendering that syncs with your model — fast, with a deep built-in asset library.

[See examples →](#)

WORKS WITH

SketchUp, Revit, Rhino, 3ds Max, Blender (Live Sync)

PRICE

Free (Community) · Pro \$30/mo (billed annually)

REVIEWS

Capterra **4.8** (409 reviews)

PRAISED FOR

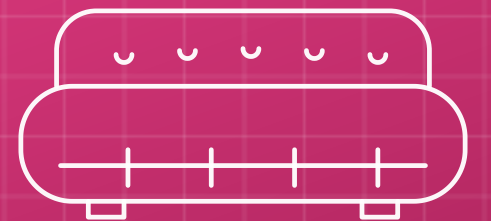

Real-time speed, a huge asset library, and strong value (the core app is free).

WATCH-OUTS

Needs a ray-tracing-capable GPU (NVIDIA/AMD/Intel) and Windows; the free Community plan is for non-commercial use, and premium assets may add a watermark.

"The intuitive interface, real-time rendering capabilities, and extensive asset library have significantly improved my workflow..."

KAAN A., CO-FOUNDER · CAPTERRA

FF-01 SORIANA SOFA

1:20

REAL-TIME ENGINE · VR / 360°

Enscape

One-click real-time rendering inside your CAD tool — the fastest way to see your model as a walkable, photoreal space.

[See examples →](#)

WORKS WITH

Revit, SketchUp, Rhino, Archicad, Vectorworks

PRICE

From \$47.90/mo (billed annually)

REVIEWS

G2 **4.6** (414 reviews)

PRAISED FOR

Ease of use, tight Revit/SketchUp integration, and instant real-time + VR.

WATCH-OUTS

Smaller asset library than some rivals; subscription-only (Windows & Mac, host-app dependent).

“What I like most about Enscape is how easy it is to use and how quickly it produces realistic renders.”

ASHISH A., FIELD ENGINEER · CAPTERRA

FF-02 WOMB CHAIR

1:20

REAL-TIME ENGINE · VR / 360°

Lumion

The presentation powerhouse — atmospheric stills, video, and 360° panoramas from your model, with a vast nature and object library.

[See examples →](#)

WORKS WITH

SketchUp, Revit, Rhino, AutoCAD, Archicad & more

PRICE

Lumion View \$19/mo · Pro \$96/mo (annual, billed upfront)

REVIEWS

Capterra **4.7** (155 reviews)

PRAISED FOR

Atmospheric, presentation-grade output and a vast object/nature library.

WATCH-OUTS

Hardware-hungry; annual plans billed upfront. Lumion Pro is Windows-only (Lumion View also runs on Mac).

"It is very easy to use and I love how realistic the renders are."

HARRISON B., INTERIOR DESIGNER · CAPTERRA

FF-03 PENDANT CLUSTER

1:20

AI GENERATOR · IN SKETCHUP

SketchUp AI Render

Turn your SketchUp model into a styled, photoreal image from a text prompt — right inside SketchUp, across desktop, iPad and web.

WORKS WITH

Your SketchUp model view + a text prompt

PRICE

In SketchUp Go \$10.75 / Pro \$33.25 /mo (billed annually)

REVIEWS

SketchUp overall **~4.5** (Capterra) — AI Render has no standalone reviews yet

PRAISED FOR

Lives inside SketchUp with nothing new to learn; simple and quick.

WATCH-OUTS

AI Render is a new feature; monthly AI credits are limited and don't roll over.

"Very easy to use, uncomplicated in UI appearance, and availability of various features that continue to grow."

DENI H., FREELANCER · CAPTERRA — REVIEWING SKETCHUP OVERALL

[See details →](#)

FF-04 PEDESTAL TABLE

1:20

AI GENERATOR · TEAM CANVAS

Gendo

A shared AI rendering canvas for studios — your team renders together, and it keeps your geometry fixed. Drop in a real product photo and it places it in the scene.

[See examples →](#)

WORKS WITH

Sketch, grey model, or view from SketchUp / Revit / Rhino

PRICE

Free · Studio £79/mo

REVIEWS

New — limited public reviews

PRAISED FOR

The collaborative canvas, geometry that stays fixed, and no-training commitments on Studio/Enterprise plans.

WATCH-OUTS

A 2024 architect review found it fiddly (“herding cats”) — it has evolved since. On the Free plan, prompts may be used for training; use Studio/Enterprise for confidential client work.

New to market — limited public reviews at the time of writing.

NO VERIFIED QUOTES YET

FF-05 ARCO

1:20

AI GENERATOR · IN CAD

Veras

AI rendering that uses your real model as the source, inside the CAD tool you already use — with controls to preserve massing and geometry (AI details still need checking).

[See examples →](#)

WORKS WITH

Revit, SketchUp, Rhino, Archicad, Vectorworks, plus sketches, plans & a web app

PRICE

Starter \$16.90 · Pro \$29/mo (billed annually)

REVIEWS

New — limited public reviews

PRAISED FOR

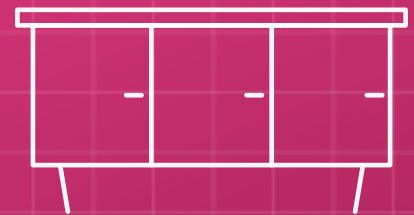

Staying faithful to your actual model and living inside your CAD tool (respected in AEC).

WATCH-OUTS

Less free-form than prompt-first tools; AI-generated details need verifying; adds cost on top of your CAD licence.

New to market — limited public reviews at the time of writing.

NO VERIFIED QUOTES YET

FF-06 SIDEBOARD

1:20

AI GENERATOR · SKETCH-FIRST

Vizcom

A strong sketch-to-render tool — draw, and watch it become a render live, keeping your linework.

[See examples →](#)

WORKS WITH

Hand or digital sketch, reference photo, text

PRICE

Free · Pro \$49/mo

REVIEWS

Limited third-party review coverage

PRAISED FOR

Sketch fidelity and speed, with strong linework workflows.

WATCH-OUTS

Priced for pros; built mainly for product/industrial design — interiors are a secondary use case.

Limited third-party review coverage at the time of writing.

NO VERIFIED QUOTES YET

FF-07 PLANTER

1:20

AI GENERATOR · WEB

Mnml.ai

Turn a rough sketch or a grey model screenshot into a photoreal image fast — no render scene to set up.

[See examples →](#)

WORKS WITH

Sketch, model screenshot, 2D plan, text

PRICE

From \$29/mo

REVIEWS

New — limited public reviews

PRAISED FOR

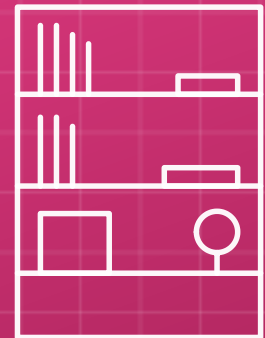

Concept quality, a wide style range, and enhancement up to 8K (4K on the entry plan).

WATCH-OUTS

Detail quality varies by tier; limited public review history.

New to market — limited public reviews at the time of writing.

NO VERIFIED QUOTES YET

FF-08 OPEN SHELVING

SketchUp AI Render	AI generator	—	—	in SketchUp, \$10.75/mo (annual)
Gendo	AI generator	—	—	Free · £79/mo
Veras	AI generator	—	—	\$16.90–29/mo (annual)
Vizcom	AI generator	~ live	—	Free · \$49/user/mo
Mnml.ai	AI generator	—	—	from \$29/mo

And ChatGPT, Gemini, Midjourney?

Excellent for fast mood, concept and reference images. They can hold an uploaded room view to varying degrees, but don't offer the native CAD/BIM integration or predictable geometry controls of the specialized tools. And no AI generator — these included — should be assumed to produce specification-accurate results without checking the output against your model, drawings and selected products.
